Re: Legal Audit on the (Indirect) ownership of interests of WLTH Corp. in Crusoe Energy Systems LLC.

I have written this legal audit (the “Legal Audit”) upon a request of WLTH Corp. (“WLTH”) regarding its intended indirect economic interest in Crusoe Energy Systems LLC (the “Portfolio Company”) through its subscription for interests in the Series, a Delaware Series Limited Liability Company. The anticipated conclusion here is that, as of this date, following my review and subject to the stated assumptions and relevant legal considerations, I confirm that WLTH has executed the Subscription Agreement in respect of Interests in the Series (certain investment terms are redacted in this public version).; this means, in other words, that WLTH has the right (but not the obligation) to proceed to purchase some interests in the Series. The Subscription Agreement provides that each individual Interest shall represent, and be directly tied to, one share in the Portfolio Company. The Series documentation further provides that the Series Underlying Assets are Series A preferred shares of the Portfolio Company. The Subscription Agreement also provides that the subscription is not binding on the Series until accepted by the Series Manager and may be rejected (in whole or in part) at the Series Manager’s discretion. In addition, the signature page states that, at any time prior to use of subscription funds by the Issuer, the Manager may return tendered subscription funds and reject the subscription agreement. Accordingly, to the extent the offering/raise is ongoing and/or acceptance and closing steps remain pending under the Reviewed Documents, the final number of Interests allocated/issued to WLTH may be subject to such acceptance/issuance mechanics and could be less than the number reflected in the executed subscription documentation.

For the reasons explained above, this copy of the original Legal Audit does not indicate some sensitive information including but not limited to certain investment terms. Kindly be advised that the names of the files containing sensitive information, which were reviewed for the preparation of this Legal Audit, may have been modified accordingly.

I am an EU-qualified lawyer with deep expertise in blockchain technology and digital assets. Since 2020, I have advised a diverse range of DeFi and blockchain organizations, including DAOs, incorporated in various jurisdictions such as the USA, EU, Panama, Cayman Islands, BVI, and the RMI. My areas of focus include regulatory compliance, DeFi contracts, SAFEs, SAFTs, investment contracts, company formation, IP matters, and cybersecurity litigation.

The ownership structure in question involves WLTH's executed subscription for Interests in the Series. The Series documentation provides that the Series' sole investment will consist of shares of the Portfolio Company acquired by investing in a passive investment in an underlying special purpose vehicle (the "Underlying SPV") that will significantly invest all of its capital in the Portfolio Company.

I. Scope of Review

In rendering the opinions set forth herein, I have examined and relied upon originals or copies, certified or otherwise identified to my satisfaction, of the following documents (collectively, the "Reviewed Documents") which are listed below:

1. **Non-disclosure Agreement:** this document is a non-disclosure agreement entered into in connection with viewing and engaging with the Series' offerings and/or data rooms.
2. **Crusoe 1 – Series Agreement:** this document constitutes the Series Agreement for the Series, providing (among other things) the Series Formation Date (February 2, 2026), the identification of the Portfolio Company as Crusoe Energy Systems LLC, and the Series Underlying Assets as Series A preferred shares of the Portfolio Company.
3. **Crusoe 1 – Subscription Agreement – WLTH CORP (Signed):** this executed subscription agreement sets forth the terms pursuant to which WLTH subscribes for Interests in the Series and includes customary representations, warranties, risk disclosures, and contractual conditions. The agreement also provides that each individual Interest shall represent, and be directly tied to, one share in the Portfolio Company, and that the subscription is not binding on the Series until accepted by the Series Manager and may be rejected (in whole or in part) at the Series Manager's discretion.
4. **sample_executed_subscriber_agreement.pdf:** this document appears to be a sample form of executed subscriber agreement.

II. Assumptions

In our examination and for the purpose of this audit, we have assumed, without independent investigation or verification:

- (a) The authenticity and completeness of all signatures on all documents submitted to us. (b) The genuineness of all documents submitted to us as originals, and the conformity to the originals of all documents submitted to us as copies. (c) The legal capacity, power, and authority of all parties (other than WLTH) to execute and deliver all documents. (d) The accuracy and

completeness of all factual representations and warranties made in the Reviewed Documents.
(e) That any acceptance/issuance mechanics, conditions, and timing requirements referenced in the Reviewed Documents have been or will be satisfied as applicable, and that the registers and records relevant to the Interests and the Series Underlying Assets are accurate and properly maintained in accordance with the laws of their respective jurisdictions.

III. Opinion

As of this date, following my review and subject to the stated assumptions and relevant legal considerations, I confirm that WLTH where it decides to do so, would be able to execute a Subscription Agreement in relation to the Series. Also it remains clear that WLTH is not obliged to proceed to such purchase: ; this means, in other words, that WLTH has the right (but not the obligation) to proceed to purchase some interests in the Series. The specific amount of the interests to be purchased by WLTH is not determined at the moment and will be only determined when, and if, the final purchase will be executed.

The Reviewed Documents provide that: the Portfolio Company is Crusoe Energy Systems LLC; the Series Underlying Assets are Series A preferred shares of the Portfolio Company; and each individual Interest shall represent, and be directly tied to, one share in the Portfolio Company.

The Subscription Agreement further provides that the subscription is not binding on the Series until accepted by the Series Manager and that it may be rejected (in whole or in part) at the Series Manager's discretion. Consequently, to the extent the offering/raise is ongoing and/or acceptance and closing steps remain pending under the Reviewed Documents, the final number of Interests allocated/issued to WLTH may be subject to such acceptance/issuance mechanics and could be less than the number reflected in the executed subscription documentation.

IV. Qualifications and Limitations

This audit is limited to the matters expressly stated herein, and no opinion is implied or may be inferred beyond the matters expressly stated. The opinions expressed herein are based on the facts and law as they exist on the date of this letter. We assume no obligation to update or supplement this legal audit to reflect any facts or circumstances that may hereafter come to our attention or any changes in the law that may hereafter occur.

Very truly yours,

Paolo Maria Gangi
